

Leapster® Story Explorers Grades K–3

Immerse students in interactive story narratives and engaging activities using screen-based, handheld personal learning tools

New!

This new handheld-based program reinforces language learning through instruction and skill practice in a highly engaging environment. Leapster Story Explorers accelerates development of essential language skills and prepares students for literacy and academic success.

- Develops essential reading and listening skills with instruction and activities in vocabulary, phonemic awareness, syntax, and comprehension
- Scaffolds English language content with Spanish audio support
- Monitors student progress through teacher reports
- Provides learning paths that allow students to progress at their own pace
- Offers writing extension activities in student practice books

Home Connection Kits

Extend learning to the home through home connection kits that reinforce English language proficiency.
